

MEDICAL ASSISTANT REPORT

2025-09-28 00:09:29

SUMMARY OF FINDINGS

The patient reports a constant, sharp throat pain localized to the voice box, which started yesterday and is rated as a 10 out of 10 in severity. They deny any other associated symptoms or prior occurrences of this pain. Medical history is unremarkable, but their father has diabetes. There have been no recent lifestyle changes.
